310	302.1	NOV		No DGO shall commence w/o first obtaining permit (0.10 acre or more)	
Specifically:	Active dust-generating operation in progress with measured disturbed areas at 9.49 acres observed on parcel 401-30-015C identified by Shari Yeatts as Pullet Farm - Phase II project. There is no permit for this activity.				
Disposition Date/Time: 17MAR2014 / 0650			Disposition Status: Violation Corrected		
Disposition Comments:			I verified a dust control permit application, application fee, and \$100.00 late fee has been submitted on 13MAR2014.		

Comments

From off-site, I observed an active dust-generating operation located at he Hickman's Egg Ranch property at the southeast corner of 331st Ave/ Salome-Tonopah Highway, on parcel 401-30-015C.

I met on site with Compliance Manager, Shari Yeatts of Hickman's Egg Ranch, Inc. in response to a complaint regarding odor for which the remainder of this inspection report will not concern itself. Ancillary to the complaint response, Ms. Yeatts accompanied me onto the work site where the dust-generating operation was taking place.

Ms. Yeatts stated the dust generating operation is identified as Pullet Farm - Phase II and the general contractor for the project is Hickman's Egg Ranch, Inc. Ms. Yeatts stated a subcontractor, Young Farm Leveling, performed the grading on the site but specifically excluded the dust permit from the quote. Ms. Yeatts stated Project Director, Paul Yeatts of Hickman's Egg Ranch, Inc. is the project contact for this activity, but was not available on site.

I observed a large tank on the north end of the parcel which Ms. Yeatts stated was a component of a new well completed approximately 4 months ago.

I observed a new lay house, and another new lay house with active construction activity in progress, including bulk material transport and stacking operations.

Ms. Yeatts contacted Mr. Yeatts be telephone and informed me the estimated area of disturbance was 400 ft. x 900 ft.

Ms. Yeatts accompanied me to the work site where I paced the disturbed area and took photographs of my observations. I measured the disturbed area as follows: [My paces are measured at 20 paces per 50 feet.]

Width measured along East border of work site starting even with the north east corner of the completed lay house to the South fence line on parcel 401-30-015C at 183 paces.

Length From the East edge of the material stockpiles to the West border fence line of the parcel at 270 paces.

Comments

The above two measurements delineate a geometric rectangle including the new lay houses and the material storage areas and unpaved disturbed areas of the parcel. So this area's measurement in square feet is 308,812.5 square feet.

I also measured a triangular shaped area immediately North and adjacent to the above rectangular area as follows:

The Base measured from the East edge of the material stockpiles to the fence line on the West border of the parcel at 270 paces.

The Height is measured from the Northwest edge of the disturbed area around the well site to the South fence line measure 307 paces, then reduced by the 183 paces measured from the North wall of the completed lay house to the South Fence line to result of 124 paces]

[The above two measurements delineate the Height and the Base of a triangle adjacent where the Base is congruent to the North border of the prior measurement of the rectangle.]

This area's measurement in square feet is 104,625 square feet.

Total measured disturbed area is 413437.5 square feet which equals 9.49 acres. I did not have complete measurements for an additional disturbed area consisting of material stacking and bulk storage of building materials actively being moved onto the adjacent parcel to the south at the time of my inspection. Also, I did not reduce my measurements further for the permanently stabilized areas i.e. tank, and lay house.

I informed Ms. Yeatts of the potential I would be issuing a violation for the unpermitted dust generating operation.

On March 10, 2014; I reviewed email from Supervisor, Eric Poole instructing me to issue the violation.

I telephoned both Ms. Yeatts and Paul Yeatts and informed them I was issuing the violation for the unpermitted dust generating operation to Hickman's Egg Ranch, Inc. and with a disposition pending the submittal of a dust control permit application and submittal of a late fee.

I emailed Mr. Yeatts with the permit number (E140556) procedurally generated with a \$100.00 late fee applied. I telephoned Mr. Yeatts and informed him the violation required corrective action consisting of submittal of a dust permit application and related fees, including a \$100.00 late fee with the assigned permit number. I informed Mr. Yeatts the the violation would necessarily be referred to Enforcement.

Mr. Yeatts arranged to promptly submit the dust control permit application and inform me when the application has been submitted with the applicable fees.

On March 17, 2014, @ 0650 hrs. I verified the Dust Control Permit application, application fees, and \$100.00 late fee was submitted for planned disturbance of 20 acres. No further correction is required for this particular violation. However, this violation is necessarily referred to Enforcement.

314	301	NOV		It shall be unlawful to ignite, cause, allow or maintain any open outdoor fire	
Specifically: <i>I observed burning evidenced by smoke from compost/ mulch piles on APN: 401-30-005K at Hickman's Egg Ranch.</i>					
Disposition Date/Time: 07MAR2014 / 1000 hrs			Disposition Status: Violation Corrected		
Disposition Comments: Following site's application of water, I observed the smoke had ceased.					

Comments

From off-site, I observed smoke being generated from bulk storage piles of unknown material on the Hickman's Egg Ranch property just East of Ward Rd on Parcel 401-30-005K.

I met on site with Compliance Manager, Shari Yeatts of Hickman's Egg Ranch, Inc. in response to complaint regarding odor. Ancillary to the complaint response, Ms. Yeatts accompanied me outside the facility where I observed smoke was emanating. Ms. Yeatts stated the bulk storage piles were composting manure and mulch. Ms. Yeatts also stated the composting manure and mulch piles don't usually get that big and immediately telephoned to have water applied to the piles to eliminate the smoke.

I informed Ms. Yeatts of the potential I would be issuing a violation for the unlawful burning. I took photographs of my observations.

Later in the inspection Ms. Yeatts accompanied me again to the area where I observed the smoke was no longer visible.

On March 10, 2014; I reviewed email from Supervisor, Eric Poole instructing me to issue the violation.

I telephoned Ms. Yeatts and informed Ms. Yeatts I was issuing the violation for unlawful burning to Hickman's Egg Ranch, Inc. and with a disposition of being corrected by the cessation of smoke while I was on site. I informed Ms. Yeatts the violation would be referred to Enforcement. I informed Ms. Yeatts that a separate violation would be issued for future similar observations. Ms. Yeatts stated the compost/mulch piles would be reduced in size and turned to prevent recurring burning.

No further corrective action will be required for the disposition of this particular violation. However, prevention of further occurrences of burning is suggested.

No specific violations were issued for my primary complaint response for odor. However, I identified a strong acrid odor emanating from the lined, evaporation ponds. Ms. Yeatts stated the waste water present in the ponds is from the egg washing process. The odor did not appear to be a Hydrogen Sulfide odor to me, so I did not request a fence-line test. Ms. Yeatts stated a new product was being considered called, ProKure, which may reduce or eliminate the odor as well as provide pathogen control.
